JPAN 481 Advanced Japanese for Proficiency I
This course is for students with an advanced background in Japanese, who are interested in taking at least the Level 2 Japanese Proficiency Test. Solid grammar, an extensive vocabulary, and the knowledge of at least 800-900 Chinese characters is required. This course is not continuous with any existing intermediate or advanced-level Japanese course; therefore, your grade from any of those courses does not qualify you to take this class. Eligibility will be determined through an interview and placement test taken in the first meeting. All students who take this course are required to take the Japanese Proficiency Test in December. Since the JLPT is administered in December every year, if you wish to fully prepare for the test, the instructor strongly recommends that you take Advanced Proficiency II in the same calendar year. For example, if you plan to take the test in December, take Advanced Proficiency II in the prior spring and take Advanced Proficiency I in the fall. Different from other courses, this full-year course begins in the spring and ends in the fall, because the test is given in December. However, participation in 482 is optional.
