

ARCHITECTURE: HISTORIC PRESERVATION, MSD

The one-year Master of Science in Design with a concentration in Historic Preservation (MSD-HP) complements Weitzman School's long-standing two-year MSHP degree. The MSD-HP directly addresses the needs of practicing design professionals seeking post-professional training, specialization, or change in career path. The MSD-HP curriculum requires 10 CUs and spans one calendar year – two full-time semesters. Half of the required courses are elective; personalized curricula can accommodate advanced thesis research or additional studios. Applicants must possess a professional degree in design or planning fields (architecture, landscape architecture, interior architecture, urban planning, urban design, engineering) from an accredited university, and at least three years of professional experience.
