

# HEALTH CARE AND TECHNOLOGY, CERTIFICATE

The Graduate Certificate in Health Care and Technology is designed to provide industry specific knowledge, strategic insights, and human- and patient-centered design skills. Graduates will be prepared to develop technological solutions that improve patient experience and outcomes, lower the cost of care, and foster a more sustainable work environment for health care providers.

## Curriculum

Code	Title	Course Units
<b>Requirements *</b>

HCIN 6160	Advancing Health Equity	
<b>Total Course Units</b>		<b>4</b>

<sup>1</sup> All SEAS students entering the certificate must take this course as part of their degree studies. Students in MCIT will take this as an elective; students in MSE-DS or MSE-AI must take this as a “Free Elective.” SEAS students taking this course for credit in an engineering degree must complete a final project focused on an area of computer science.

\* Students need to complete a total of four courses (4.0 CUs) with a cumulative GPA of at least 3.0 to earn the certificate.

The degree and major requirements displayed are intended as a guide for students entering in the Fall of 2025 and later. Students should consult with their academic program regarding final certifications and requirements for graduation.
