

HIGHER EDUCATION MANAGEMENT, EDD

Peerless in our focus on the unique strengths and challenges of senior-level leaders in higher education, the Executive Doctorate reaches far beyond a standard doctoral program, as it brings together cohorts of current senior leaders to challenge each other and engage with world-renown faculty— all without career interruption. The Executive Doctorate in Higher Education Management trains an emerging generation of top higher education leaders from campuses, government, and affiliated organizations to manage resources strategically, leverage evidence-based decision-making, create entrepreneurial opportunities, challenge practices critically, and conquer the dynamics of complex organizations. The program redefines academic inquiry: we focus on using sound analytic principles to tackle relevant, practical questions of strategy for governing broad segments of the higher education enterprise. Our alumni form a growing and influential network of college presidents, vice presidents, deans, and other leaders who overwhelmingly report that the program propelled their careers and increased their impact.

EDHE 6150	Leadership and Change for Higher Education's Future

Total Course Units

19

Course Requirements

Candidates for the Executive Doctorate must complete the equivalent of at least 19 course units of approved graduate work beyond the baccalaureate degree. Admission to the Executive Doctorate requires a master's degree (M.S. or M.A.) or professional degree (M.B.A., J.D., M.S.W., M.P.A., M.Ed.) and transfer of eight post-baccalaureate courses. These credits must be approved by the program director.

Students are admitted to the Executive Doctorate as a cohort. A minimum of 12 course units of graduate work is included in the program. The program consists of a prescribed curriculum that students take as a single cohort offered over six consecutive semesters of enrollment—there are no elective courses or distribution requirements. Students begin in August, and complete coursework over the next five terms. Dissertations are completed during the sixth and final semester of the program. All degree students must maintain a cumulative grade point average of at least "B" in order to graduate.

CU count

The program is designed as an integrated twenty-two month experience where all classes are predetermined and continue across terms. Students are considered full time and pay a flat tuition/program fee rate regardless of the number of course units they are registered for each term.

Elective courses

The course load per term for Executive Doctorate students is prescribed; students may not take additional courses, either at Penn or elsewhere, nor may students drop or add courses, during the period of their enrollment.

Dissertation Requirements

Information regarding program candidacy, the doctoral preliminary examination, forming a dissertation committee, holding an oral proposal hearing and scheduling a final defense can be found on the GSE website.

Dissertation Supervision Registration

For students registered after the sixth semester of the program, registration for consecutive semesters is required in the form of

dissertation supervision (EDUC 9995). Applicable Penn tuition and fees will apply.

Registering for dissertation supervision does not necessarily mean that a student is on dissertation status. Dissertation status is attained once a student completes all coursework and passes the preliminary examination.

1

Course offerings vary per term, academic year, and/or cohort.

2

International site location changes per year

3

Session may require travel to off site location

The degree and major requirements displayed are intended as a guide for students entering in the Fall of 2023 and later. Students should consult with their academic program regarding final certifications and requirements for graduation.
