

SCHOOL LEADERSHIP, MSED

The School Leadership Program prepares professionals in independent, public, and charter schools to inquire into their own practice and develop their identities as leaders, building confidence and excellence. Our integrated program of study focuses on the dynamics of instructional, organizational, public, and evidence-based leadership with coursework designed to help students draw connections between theory and practice by applying learning in school settings. We emphasize cross-cutting competencies, including habits of mind, intrapersonal/interpersonal growth, reflective practice, communication skills and professionalism. In a field where practitioners are frequently siloed within their schools, grade levels, and sectors, the master's in School Leadership Program brings together students representing a diverse array of public, charter, and independent schools—not only from across the region but also the nation.

Required Milestone:

Master's degree candidates must demonstrate thorough knowledge of the field of specialization by passing a comprehensive examination in their area of study. The examination/portfolio/thesis serves an educational and evaluative purpose through which students are expected to review and integrate what they have learned in their coursework and fieldwork. Comprehensive formats vary.

¹ The School Leadership Program is unable to provide immigration sponsorship for international students.

² To be admitted into this track, students must have several years professional experience in a school setting. Most often our students' school experience comes from teaching in a classroom but special to the Independent School Track is the ability for those in admissions or development roles at private schools to participate in the program without having had prior classroom experience.

2 *School Leadership, MEd*

³ To be admitted into this track, students must either have at least three years teaching experience or two years teaching experience and be in a teaching position while completing the program.

The degree and major requirements displayed are intended as a guide for students entering in the Fall of 2020 and later. Students should consult with their academic program regarding final certifications and requirements for graduation.
