

# THE MAJOR

---

The Major provides an opportunity to know a segment of human knowledge deeply, with a sufficient grasp of its modes of thinking and analysis to make your own contribution.

The College offers more than 55 majors (<http://catalog.upenn.edu/undergraduate/arts-sciences/majors/>) across the humanities, social sciences and natural sciences, and many programs provide options for concentrating in any number of specialty areas.

Visit the College website (<https://www.college.upenn.edu/curriculum/>) for more information on the College curriculum.
