

DIGITAL MEDIA DESIGN, BSE

The Digital Media Design (DMD) program is an interdisciplinary major in the School of Engineering and Applied Science at Penn. As a full-fledged Bachelor of Science in Engineering (BSE) degree, it combines major coursework in computer graphics within the Computer & Information Science Department, communication theory courses from the Annenberg School and Fine Arts courses from Penn's School of Design. The program was designed for students who have an interest in computer graphics, animation, games, and the design of virtual reality environments and interactive technologies.

¹ A CIS Elective is a CIS or NETS engineering course at the 1000 level or above, or ESE 3500 Embedded Systems/Microcontroller Laboratory (NOTE: not all CIS/NETS courses are **engineering** courses; please see the SEAS Undergraduate Handbook (<https://ugrad.seas.upenn.edu/student-handbook/courses-requirements/engineering-courses/>)). At most, one CU of 1000-level coursework may be used as a CIS Elective.

² Select courses from offerings in the following categories: COMM, FNAR, CIMS, DSGN, THAR, MKTG, ARTH, IPD, MUSC, EDUC. Courses from other categories require advisor approval.

³ Must include a Writing Seminar (a list of approved Writing Seminars can be found in the SEAS Undergraduate Handbook (<https://ugrad.seas.upenn.edu/student-handbook/courses-requirements/writing-courses/>)).

⁴ Approval is required.

The degree and major requirements displayed are intended as a guide for students entering in the Fall of 2023 and later. Students should

consult with their academic program regarding final certifications and requirements for graduation.
