

HEALTH COMMUNICATIONS, MINOR

The Health Communication minor is a collaboration between the School of Nursing and the Annenberg School for Communication. This program expands students' knowledge of the communication process, theory, and behavior, and it prepares them for roles as professionals who develop cutting edge models for health behavior intervention or implement patient education and health communications programs locally, nationally, and globally.

For more information: <http://www.nursing.upenn.edu/health-communications-minor/>

The Health Communications Minor requires a total of 6 course units.
