

# CURRICULUM

All Wharton single-degree undergraduate students must complete a minimum of 37 course units and meet the curricular requirements described below. Students enrolled in a coordinated dual-degree (<https://undergrad-inside.wharton.upenn.edu/coordinated-dual-degree/>) program should check with their program advisor to learn about their unique requirements. For a Wharton single-degree undergraduate student, the standard course load is 4 to 5 CUs per semester (see a sample course sequence (<https://undergrad-inside.wharton.upenn.edu/sample-curriculum/>)).

The requirements of the Wharton single-degree curriculum are delineated on the academic planning worksheet (<https://undergrad-inside.wharton.upenn.edu/download/academic-planning-worksheet-2017/?wpdmdl=3785>). Details about these requirements are available via the links below.

Students are encouraged to see an academic advisor (<https://undergrad-inside.wharton.upenn.edu/advising-services/>) for any questions about the requirements of their academic program.
